

THE 2020 CENSUS HAS BEEN PUSHED FORWARD SEPTEMBER 30 IS **THE NEW DEADLINE!**

Why is this important??

The numbers collected from the census are used to draw congressional districts and assign the correct number of seats to each state in the US House of Representatives. States will use census numbers to draw legislative and school districts. The census helps determine how \$675 billion in federal funding is distributed to communities each year. Census data is confidential. US law requires that personal information gathered in the census is kept strictly confidential for 72 years. For more info, visit:
